

# CROS-ARC

## 291C MIG / MMA

The CROS-ARC 291C MIG/MMA is a 230V latest technology inverter based power source incorporating a dynamic 4 roll wire feed system and full electronic adjustment of all welding parameters.

The CROS-ARC 291C allows welding in both MIG/MAG and MMA, making it ideal for a wide variety of industries including agricultural, light to medium fabrication and Automotive repair.

Package includes:  
Undergear / Cylinder carrier  
3 Metre Primary cable  
2 Metre Gas hose  
4 Metre 250A MIG Torch  
Earth return  
MMA Leads

### TECHNICAL SPECIFICATION

Power Supply (+15% /-15%)	230V 1Ph
Fuses A	T30
Regulation Field in MIG	30- 250A
Regulation Field in MMA	25-200A
MIG Duty Cycle @ 60%	250A
MMA Duty Cycle @ 60%	250A
MMA Electrode Size	1.6 - 5.0mm
Protection Class	IP21
Weight	55 KG

**Part No. CA0254**
