

CAGE CLAMPS

RANGE KP-CC

Our KP Cage Clamps are designed for the quick and accurate line up of pipes.

High quality and robust, they are manufactured to withstand the most rigorous and repetitive pipework environments.

Easy to use, Cage Clamps are the perfect and affordable solution for lining up a high volume of pipes that have the same diameter.

Our standard catalog of Cage Clamps range from 2" to 60", and as the manufacturer we can also develop larger ones on-request for those 'none-standard' sizes.

Optional models also available for stainless steel pipes.

PART NO.	PIPE SIZE
KP-CC2	51mm (2")
KP-CC4	102mm (4")
KP-CC6	152mm (6")
KP-CC8	203mm (8")
