Dario Gatti
European Engineering Director Machines
LINCOLN ELECTRIC ITALIA S.r.l., Via Fratelli Canepa 8, 16010 Serra Riccò (GE), Italia

English		Do not dispose of electrical equipment together with normal waste! In observance of European Directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE) and its implementation in accordance with national law, electrical equipment that has reached the end of its life must be collected separately and returned to an environmentally compatible recycling facility. As the owner of the equipment, you should get information on approved collection systems from our local representative. By applying this European Directive you will protect the environment and human health!
Italiano		Non gettare le apparecchiature elettriche tra i rifiuti domestici! In ottemperanza alla Direttiva Europea 2002/96/CE sui Rifiuti di Apparecchiature Elettriche ed Elettroniche (RAEE) e la sua attuazione in conformità alle norme nazionali, le apparecchiature elettriche esauste devono essere raccolte separatamente e restituite ad una organizzazione di riciclaggio ecocompatibile. Come proprietario dell'apparecchiatura, Lei potrà ricevere informazioni circa il sistema approvato di raccolta, dal nostro rappresentante locale. Applicando questa Direttiva Europea Lei contribuirà a migliorare l'ambiente e la salute!
Deutsch		Werfen Sie Elektrowerkzeuge nicht in den Hausmüll! Gemäss Europäischer Richtlinie 2002/96/EG über Elektro- und Elektronik- Altgeräte (Waste Electrical and Electronic Equipment, WEEE) und Umsetzung in nationales Recht müssen verbrauchte Elektrowerkzeuge getrennt gesammelt und einer umweltgerechten Wiederverwertung zugeführt werden. Als Eigentümer diese Werkzeuges sollten sie sich Informationen über ein lokales autorisiertes Sammel- bzw. Entsorgungssystem einholen. Mit der Anwendung dieser EU Direktive tragen sie wesentlich zur Schonung der Umwelt und ihrer Gesundheit bei!
Español		No tirar nunca los aparatos eléctricos junto con los residuos en general! De conformidad a la Directiva Europea 2002/96/EC relativa a los Residuos de Equipos Eléctricos o Electrónicos (RAEE) y al acuerdo de la legislación nacional, los equipos eléctricos deberán ser recogidos y reciclados respetando el medioambiente. Como propietario del equipo, deberá informar de los sistemas y lugares apropiados para la recogida de los mismos. Aplicar esta Directiva Europea protegerá el medioambiente y su salud!
Français		Ne pas jeter les appareils électriques avec les déchets ordinaires! Conformément à la Directive Européenne 2002/96/EC relative aux Déchets d' Équipements Électriques ou Électroniques (DEEE), et à sa transposition dans la législation nationale, les appareils électriques doivent être collectés à part et être soumis à un recyclage respectueux de l'environnement. En tant que propriétaire de l'équipement, vous devriez vous informer sur les systèmes de collecte approuvés auprès nos représentants locaux. Appliquer cette Directive Européenne améliorera l'environnement et la santé!
Norsk		Kast ikke elektriske artikler sammen med vanlig søppel. I følge det europeiske direktivet for Elektronisk Søppel og Elektriske Artikler 2002/96/EC (Waste Electrical and Electronic Equipment, WEEE) skal alt avfall kildesorteres og leveres på godkjente plasser i følge loven. Godkjente retur plasser gis av lokale myndigheter. Ved å følge det europeiske direktivet bidrar du til å bevare naturen og den menneskelige helse.
Nederlandse		Gooi elektrische apparatuur nooit bij gewoon afval! Met inachtneming van de Europese Richtlijn 2002/96/EC met betrekking tot Afval van Elektrische en Elektronische Apparatuur (Waste Electrical and Electronic Equipment, WEEE) en de uitvoering daarvan in overeenstemming met nationaal recht, moet elektrische apparatuur, waarvan de levensduur ten einde loopt, apart worden verzameld en worden ingeleverd bij een recycling bedrijf, dat overeenkomstig de milieuwetgeving opereert. Als eigenaar van de apparatuur moet u informatie inwinnen over goedgekeurde verzamelssystemen van onze vertegenwoordiger ter plaatse. Door het toepassen van deze Europese Richtlijn beschermt u het milieu en ieders gezondheid!
Svenska		Släng inte uttjänt elektrisk utrustning tillsammans med annat avfall! Enligt Europadirektiv 2002/96/EC ang. Uttjänt Elektrisk och Elektronisk Utrustning (Waste Electrical and Electronic Equipment, WEEE) och dess implementering enligt nationella lagar, ska elektrisk utrustning som tjänat ut sorteras separat och lämnas till en miljögodkänd återvinningsstation. Som ägare till utrustningen, bör du skaffa information om godkända återvinningsssystem från dina lokala myndigheter. Genom att följa detta Europadirektiv bidrar du till att skydda miljö och hälsa!
Polski		Nie wyrzucać sprzętu elektrycznego razem z normalnymi odpadami! Zgodnie z Dyrektywą Europejską 2002/96/EC dotyczącą Pozbywania się zużytego Sprzętu Elektrycznego i Elektronicznego (Waste Electrical and Electronic Equipment, WEEE) i jej wprowadzeniem w życie zgodnie z międzynarodowym prawem, zużyty sprzęt elektryczny musi być składowany oddzielnie i specjalnie utylizowany. Jako właściciel urządzeń powinniście otrzymać informacje o zatwierdzonym systemie składowania od naszego lokalnego przedstawiciela. Stosując te wytyczne bedziesz chronił środowisko i zdrowie człowieka!
Suomi		Älä hävittää sähkölaitteita sekajätteiden mukana! Noudatettaessa Euroopan Unionin Direktiiviä 2002/96/EY Sähkölaite- ja Elektroniikkajätteestä (WEEE) ja toteutettaessa sitä sopuosinussa kansallisen lain kanssa, sähkölaite, joka on tullut elinkaarensa päähän pitää kerätä erilleen ja toimittaa sähkö- ja elektroniikkaromujen keräyspisteeseen. Lisätietoja tämän tuotteen käsittelystä, keräämisestä ja kierrätyksestä saa kunnan ympäristöviranomaisilta. Noudattamalla tätä Euroopan Unionin direktiiviä, autat torjumaan kielteiset ympäristö- ja terveysvaikutukset!

WARNING

This equipment must be used by qualified personnel. Be sure that all installation, operation, maintenance and repair procedures are performed only by qualified person. Read and understand this manual before operating this equipment. Failure to follow the instructions in this manual could cause serious personal injury, loss of life, or damage to this equipment. Read and understand the following explanations of the warning symbols. Lincoln Electric is not responsible for damages caused by improper installation, improper care or abnormal operation.

	WARNING: This symbol indicates that instructions must be followed to avoid serious personal injury, loss of life, or damage to this equipment. Protect yourself and others from possible serious injury or death.
	READ AND UNDERSTAND INSTRUCTIONS: Read and understand this manual before operating this equipment. Arc welding can be hazardous. Failure to follow the instructions in this manual could cause serious personal injury, loss of life, or damage to this equipment.
	ELECTRIC SHOCK CAN KILL: Welding equipment generates high voltages. Do not touch the electrode, work clamp, or connected work pieces when this equipment is on. Insulate yourself from the electrode, work clamp, and connected work pieces.
	ELECTRICALLY POWERED EQUIPMENT: Turn off input power using the disconnect switch at the fuse box before working on this equipment. Ground this equipment in accordance with local electrical regulations.
	ELECTRICALLY POWERED EQUIPMENT: Regularly inspect the input, electrode, and work clamp cables. If any insulation damage exists replace the cable immediately. Do not place the electrode holder directly on the welding table or any other surface in contact with the work clamp to avoid the risk of accidental arc ignition.
	ELECTRIC AND MAGNETIC FIELDS MAY BE DANGEROUS: Electric current flowing through any conductor creates electric and magnetic fields (EMF). EMF fields may interfere with some pacemakers, and welders having a pacemaker shall consult their physician before operating this equipment.
	CE COMPLIANCE: This equipment complies with the European Community Directives.

Installation and Operator Instructions

Read this entire section before installation or operation of the machine.

Location and Environment

This machine will operate in harsh environments. However, it is important that simple preventative measures are followed to assure long life and reliable operation.

- Do not place or operate this machine on a surface with an incline greater than 15° from horizontal.
- Do not use this machine for pipe thawing.
- This machine must be located where there is free circulation of clean air without restrictions for air movement to and from the air vents. Do not cover the machine with paper, cloth or rags when switched on.
- Dirt and dust that can be drawn into the machine should be kept to a minimum.
- This machine has a protection rating of:
 - IP23C for Coolarc 20
 - IP23S for Coolarc 30

Keep it dry when possible and do not place it on wet ground or in puddles.

- Locate the machine away from radio controlled machinery. Normal operation may adversely affect the operation of nearby radio controlled machinery, which may result in injury or equipment damage. Read the section on electromagnetic compatibility in this manual.
- Do not operate in areas with an ambient temperature greater than 40°C.

Input Supply Connection

The input supply connection for the Coolarc comes from the welding power source. Refer to the accessories section of the power source instruction manual to select the correct Coolarc unit.

To connect the input supply to the Coolarc, turn off the power to the welding power source and disconnect it from the input supply. Remove the access cover on the bottom of the welding power source. Connect the Coolarc input supply connector and reinstall the access cover. Connect the welding power source to the Coolarc with the 4 screws provided. Make sure the Coolarc is securely connected to the welding power source before lifting.

Output Connections

The coolant inlet and outlet connections are found on the front of the Coolarc.

Starting from the left side:

The 1st connection is the water outlet: connect here the blue water pipe to supply coolant to the welding equipment.

The 2nd connection is the water inlet: connect here the red water pipe to return the hot coolant to the Coolarc.

WARNING

Do not switch on the welding power source with the Coolarc applied if the torch pipes (or a bypass pipe) are disconnected from the cooling unit. The non-observance of this warning may cause internal damages at the Coolarc unit.

Fill the coolant tank; the type of coolant and the quantity are indicated in the Technical Specification section of this manual.

Make the connections, check the flow and the pipes color for most efficient operation.

Controls and Operational Features

The Coolarc 20 and 30 are controlled by the welding power source applied. Refer to power source instruction manual to read the appropriate Coolarc operation sequence.

Electromagnetic Compatibility (EMC)

This machine has been designed in accordance with all relevant directives and standards. However, it may still generate electromagnetic disturbances that can affect other systems like telecommunications (telephone, radio, and television) or other safety systems. These disturbances can cause safety problems in the affected systems. Read and understand this section to eliminate or reduce the amount of electromagnetic disturbance generated by this machine.

11/04

This machine has been designed to operate in an industrial area. To operate in a domestic area it is necessary to observe particular precautions to eliminate possible electromagnetic disturbances. The operator must install and operate this equipment as described in this manual. If any electromagnetic disturbances are detected the operator must put in place corrective actions to eliminate these disturbances with, if necessary, assistance from Lincoln Electric.

Before installing the machine, the operator must check the work area for any devices that may malfunction because of electromagnetic disturbances. Consider the following.

- Input and output cables, control cables, and telephone cables that are in or adjacent to the work area and the

Maintenance

WARNING

For any maintenance or repair operations it is recommended to contact the nearest technical service center or Lincoln Electric. Maintenance or repairs performed by unauthorized service centers or personnel will null and void the manufacturers warranty.

The frequency of the maintenance operations may vary in accordance with the working environment. Any noticeable damage should be reported immediately.

- Check cables and connections integrity. Replace, if necessary.
- Check pipes and connections integrity. Replace, if necessary.
- Check the quantity of the coolant in the tank. Capacity and coolant type are indicated in the "Technical Specifications" section of this manual.
- Check the condition of the motor pump.

Keep clean the machine. Use a soft dry cloth to clean the external case, especially the airflow inlet / outlet louvers.

WARNING

Do not open this machine and do not introduce anything into its openings. Power supply must be disconnected from the machine before each maintenance and service. After each repair, perform proper tests to ensure safety.

machine.

- Radio and/or television transmitters and receivers. Computers or computer controlled equipment.
- Safety and control equipment for industrial processes. Equipment for calibration and measurement.
- Personal medical devices like pacemakers and hearing aids.
- Check the electromagnetic immunity for equipment operating in or near the work area. The operator must be sure that all equipment in the area is compatible. This may require additional protection measures.
- The dimensions of the work area to consider will depend on the construction of the area and other activities that are taking place.

Consider the following guidelines to reduce electromagnetic emissions from the machine.

- Connect the machine to the input supply according to this manual. If disturbances occur it may be necessary to take additional precautions such as filtering the input supply.
- The output cables should be kept as short as possible and should be positioned together. If possible connect the work piece to ground in order to reduce the electromagnetic emissions. The operator must check that connecting the work piece to ground does not cause problems or unsafe operating conditions for personnel and equipment.
- Shielding of cables in the work area can reduce electromagnetic emissions. This may be necessary for special applications.

Technical Specifications

COOLARC 20:

INPUT			
Input Voltage 230V ± 15% Single Phase 400V ± 15% Single Phase (supplied by the welding power source)	Input Current 0.68A 0.47A	Frequency 50/60 Hz	
COOLING CIRCUIT			
COOLANT: Use only a distilled water and pure ethylene glycol (anti-freeze) mixture; do not exceed 30% ethylene glycol. Do not use coolants with oil-based substances.			
FLOW RATE		RESERVOIR SIZE	
2.5 Liters / min (Unrestricted)		1.7 Liters	
PHYSICAL DIMENSIONS			
Height 180 mm	Width 215 mm	Length 480 mm	Weight 8.3 Kg
Operating Temperature -10°C to +40°C		Storage Temperature -25°C to +55°C	

COOLARC 30:

INPUT			
Input Voltage Pump: 400V ± 15% Single Phase Fan: 24Vdc (supplied by the welding power source)	Input Current 0.8A 1.1A	Frequency 50 Hz

<p>Part List reading instructions</p> <ul style="list-style-type: none"> Do not use this part list for a machine if its code number is not listed. Contact the Lincoln Electric Service Department for any code number not listed. Use the illustration of assembly page and the table below to determine where the part is located for your particular code machine. Use only the parts marked "X" in the column under the heading number called for in the assembly page (# indicate a change in this printing).
<p>Parti di Ricambio: istruzioni per la lettura</p> <ul style="list-style-type: none"> Non utilizzare questa lista se il code della macchina non è indicato. Contattare l'Assistenza Lincoln Electric per ogni code non compreso. Utilizzare la figura della pagina assembly e la tabella sotto riportata per determinare dove la parte è situata per il code della vostra macchina. Usare solo le parti indicate con "X" nella colonna sotto il numero richiamato nella pagina assembly (# indica un cambio in questa revisione).
<p>Hinweise zur Verwendung der Ersatzteillisten</p> <ul style="list-style-type: none"> Verwenden Sie diese Ersatzteilliste nur für die Geräte, deren Code Nummer in dieser Liste aufgeführt sind. Fehlt die Code-Nummer, wenden Sie sich bitte in diesem Fall an die Firma Lincoln. Bestimmen Sie mit Hilfe der Zusammenstellungszeichnung (assembly page), der Stückliste und der Code Nummer Ihres Geräts, an welcher Stelle sich das jeweilige Ersatzteil befindet. Ermitteln Sie zunächst mit Hilfe der assembly page die für die Code Nummer Ihres Geräts gültige Index-Spaltennummer, und wählen Sie anschließend nur die Ersatzteile aus, die in dieser Spalte mit einem "X" markiert sind (das Zeichen # weist auf eine Änderung hin).
<p>Lista de piezas de recambio: instrucciones</p> <ul style="list-style-type: none"> No utilizar esta lista de piezas de recambio, si el número de code no está indicado. Contacte con el Dpto. de Servicio de Lincoln Electric para cualquier número de code no indicado. Utilice el dibujo de la página de ensamblaje (assembly page) y la tabla para determinar donde está localizado el número de code de su máquina. Utilice sólo los recambios marcados con "X" de la columna con números según página de ensamblaje (# indica un cambio en esta revisión).
<p>Comment lire cette liste de pièces détachées</p> <ul style="list-style-type: none"> Cette liste de pièces détachées ne vaut que pour les machines dont le numéro de code est listé ci-dessous. Dans le cas contraire, contacter le Département Pièces de Rechange. Utiliser la vue éclatée (assembly page) et le tableau de références des pièces ci-dessous pour déterminer l'emplacement de la pièce en fonction du numéro de code précis de la machine. Ne tenir compte que des pièces marquées d'un "X" dans la colonne de cette vue éclatée (# Indique un changement).
<p>Instruksjon for deleliste</p> <ul style="list-style-type: none"> Ikke bruk denne delelisten hvis code nummeret for maskinen ikke står på listen. Kontakt Lincoln Electric Serviceavd. for maskiner med code utenfor listen. Bruk sprengskissen og pos. nr. på assembly page nedenfor for å finne de riktige delene til din maskin. Bruk kun de delene som er merket med "X" i den kolonnen som det henvises til på siden med assembly page (# indikerer endring).
<p>Leessinstructie Onderdelenlijst</p> <ul style="list-style-type: none"> Gebruik deze onderdelenlijst niet voor machines waarvan de code niet in deze lijst voorkomt. Neem contact op met de dichtstbijzijnde Lincoln dealer wanneer het code nummer niet vermeld is. Gebruik de afbeelding van de assembly page en de tabel daaronder om de juiste onderdelen te selecteren in combinatie met de gebruikte code. Gebruik alleen de onderdelen die met een "X" gemerkt zijn in de kolom onder het model type op de assembly page (# betekent een wijziging in het drukwerk).
<p>Instruktion för reservdelslistan</p> <ul style="list-style-type: none"> Använd inte denna lista för en maskin vars Code No inte är angivet i listan. Kontakta Lincoln Electric's serviceavdelning för Code No som inte finns i listan. Använd sprängskisserna på Assembly Page och tillhörande reservdelslista för att hitta delar till din maskin. Använd endast delar markerade med "X" i kolumnen under den siffra som anges för aktuellt Code No på sidan med Assembly Page (# Indikerar en ändring i denna utgåva).
<p>Wykaz części dotyczących instrukcji</p> <ul style="list-style-type: none"> Nie używać tej części wykazu dla maszyn, których kodu (code) nie ma na liście. Skontaktuj się z serwisem jeżeli numeru kodu nie ma na liście. Użyj ilustracji montażu (assembly page) i tabeli poniżej aby określić położenie części dla urządzenia z konkretnym kodem (code). Użyj tylko części z oznaczeniem "X" w kolumnie pod numerem głównym przywołującym stronę (assembly page) z indeksem modelu (# znajdź zmiany na rysunku).
<p>Osaluettelo, lukuohje</p> <ul style="list-style-type: none"> Älä käytä tätä osaluetteloa koneeseen, jonka koodinumero ei ole listassa. Ota yhteyttä Lincoln Electric huolto-osastoon mistä tahansa koodista, joka ei ole listassa. Käytä asennuskuvaa ja alla olevaa taulukkoa määrittääksesi, missä osa sijaitsee. Käytä vain osia, jotka on merkitty "X":llä asennussivua ilmoittavassa sarakkeessa (# ilmoittaa muutoksesta tässä painoksessa).
