

SuperSnake GT02S/ GT02SW subfeeder - subfeeder

FREEDOM TO WELD

SuperSnake GT02S/GT02SW subfeeder - subfeeder

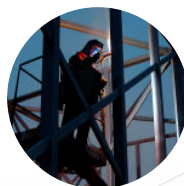

THE ULTIMATE DISTANCE AND ACCESS SOLUTION

If distance and access are your problem, then take a look at the SuperSnake GT02S and GT02SW. The SuperSnake extends the reach of standard Euro MIG welding guns, providing simple distance wire feeding for a variety of filler wires up to 25 m from the wire feed unit. The SuperSnake GT02S/GT02SW removes the need to carry large and heavy wire feed units, reducing personnel fatigue, improving safety, and increasing productivity. Negotiating all terrain with ease, SuperSnake is the ultimate predator in the welding world.

KEY APPLICATIONS

SHIPBUILDING

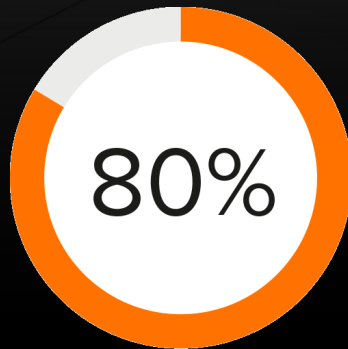

CONSTRUCTION

LIFTING EQUIPMENT

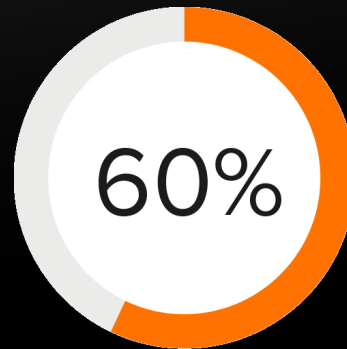

KEY BENEFITS

MORE REACH

compared to normal welding gun reach

FASTER

when setting up, accessing, and preparing to weld

BENEFITS

- Suitable for Fe/Ss/Al/FMC/MCW filler wires
- Includes voltage and wire speed adjustment
- Large, clear meter display
- Brights™ LED cabinet lighting
- 10-, 15-, 20-, 25-meter air- and water-cooled models
- Visible safety with tough, bright orange casing
- Gun remote control option

BENEFITS

80 % MORE REACH

The ultimate distance and access solution, the SuperSnake GT02S offers up to 80 % more reach than a standard welding gun (5 meters) and removes the need to carry large and heavy wire feed units. SuperSnake extends the reach of standard euro-connected welding guns for a variety of filler wires up to 30 meters in distance from the wire feed unit, enabling reliable wire feeding at distance and providing incredible agility to negotiate difficult access and confined spaces with ease.

60 % FASTER

Tests conclude that SuperSnake can frequently save more than 60 % more time when setting up, accessing and preparing to weld. In real terms, that saving can represent significant cost reductions; increasing welding productivity and significantly reducing heavy lifting and access issues.

TECHNICAL SPECIFICATIONS

| Cable diameter | 50 mm ² |
| Supply voltage | 50 VDC |
| Protection class | IP23S |

WWW.KEMPPI.COM

Kemppi is the pioneering company within the welding industry. It is our role to develop solutions that make you win business. Headquartered in Lahti, Finland, Kemppi employs over 600 welding experts in 13 countries and has a revenue of more than 110 MEUR. Our offering includes welding solutions - intelligent equipment, welding management software and expert services - for both demanding industrial applications and ready-to-weld needs. Local expertise is available via our global partner network covering over 60 countries.
