

Trim-Line™

Significantly reduce the size & weight of your torch while maintaining similar amperage capacity!

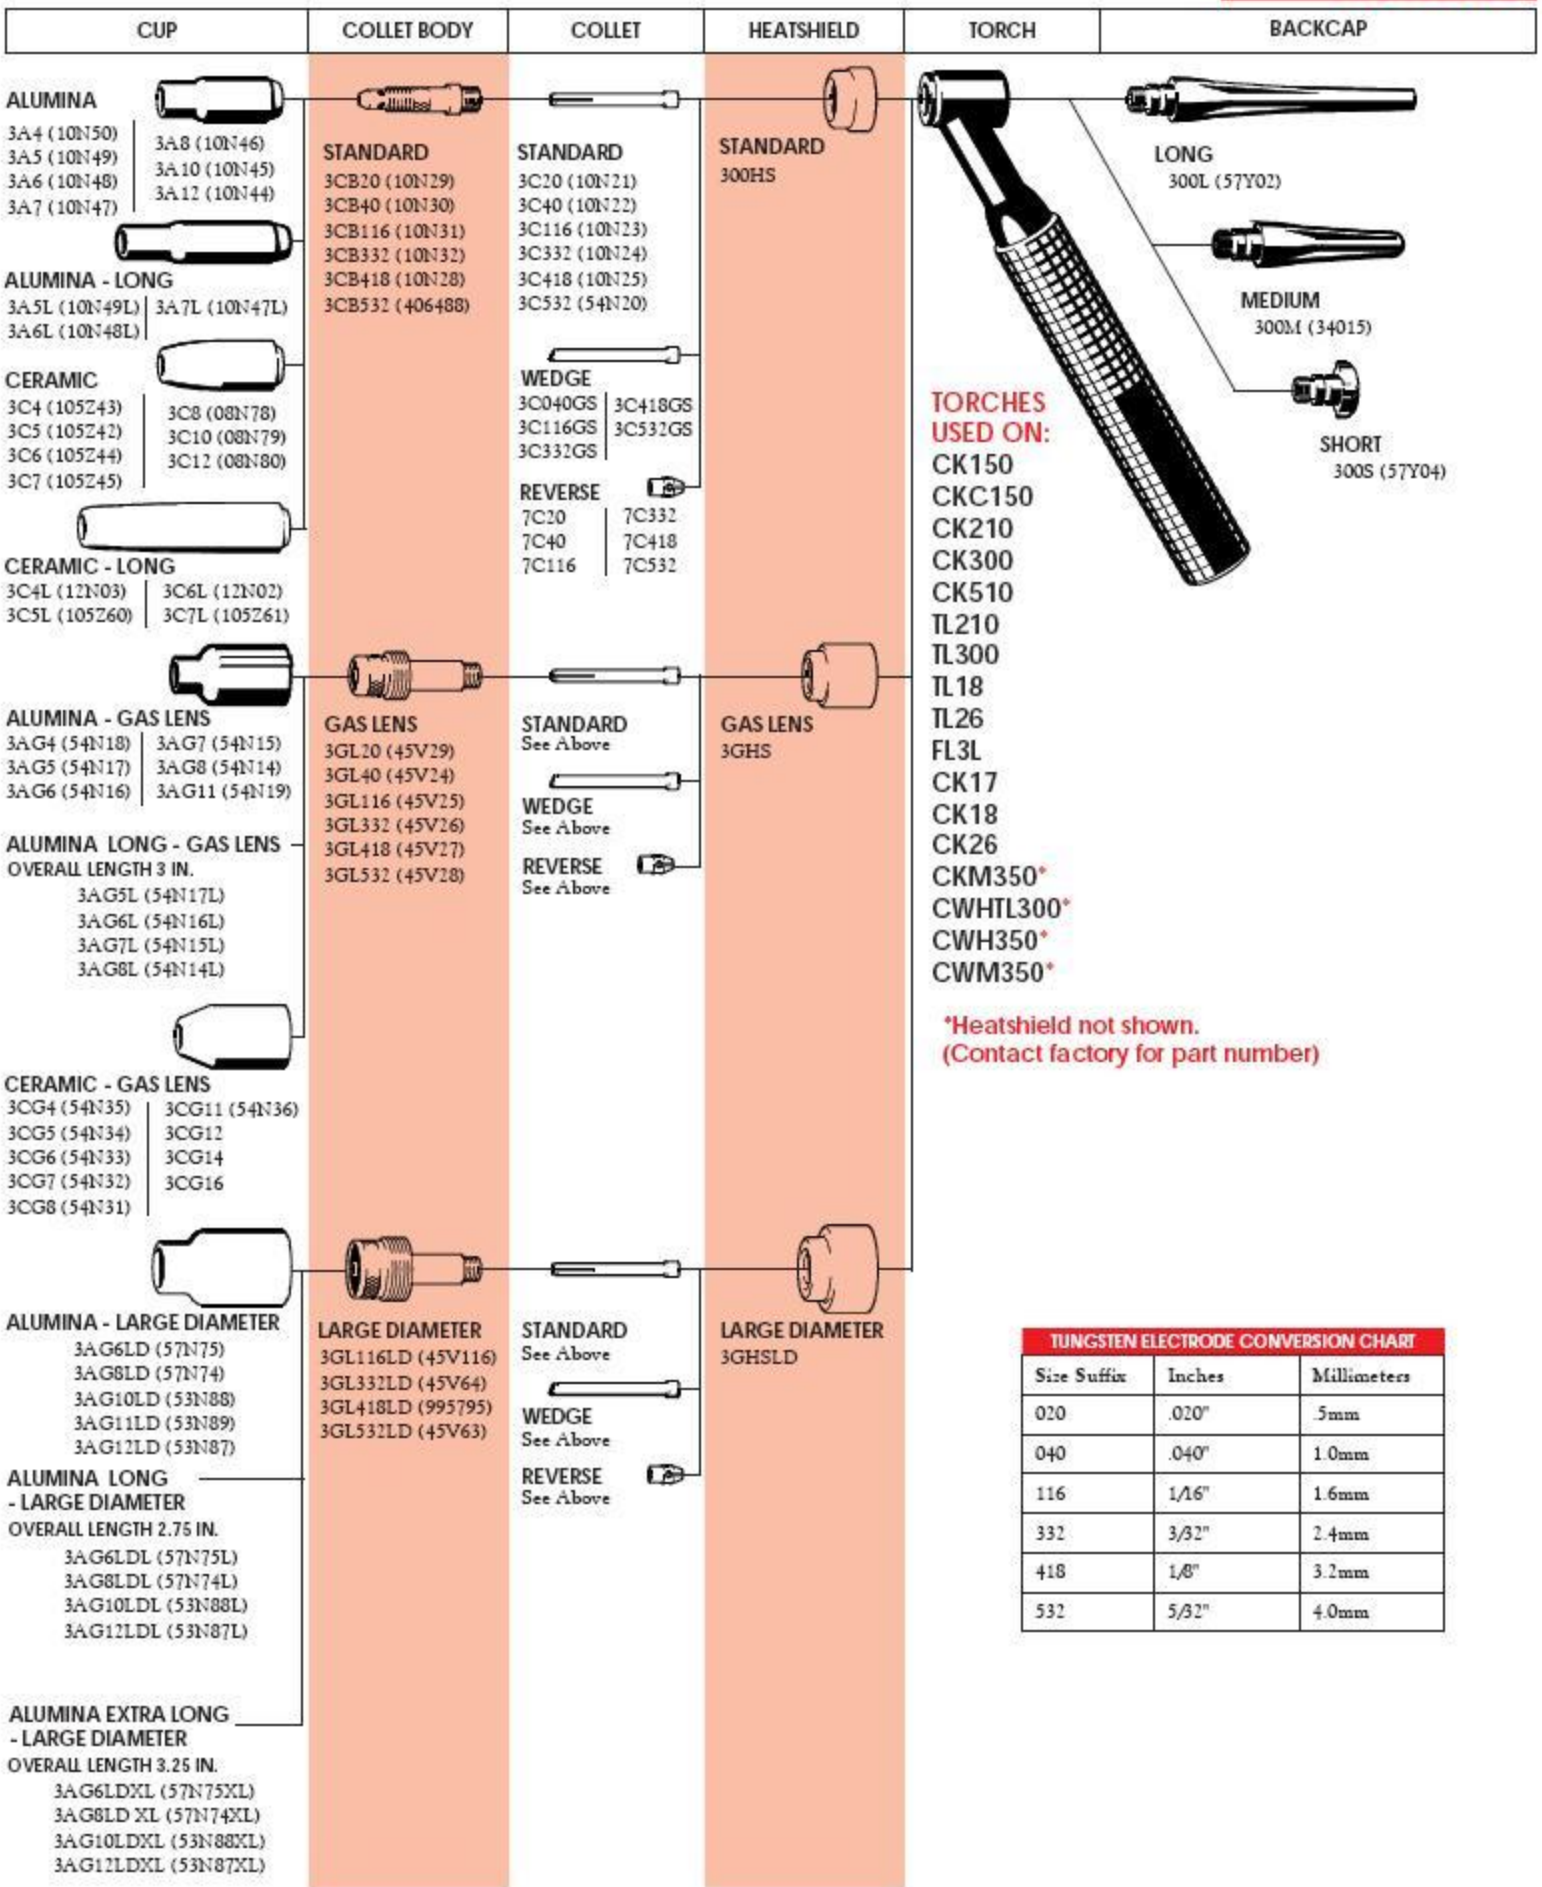

Trim-Line™ torches offer the same current ratings as the standard models they replace while providing a smaller, lighter design.

CK Worldwide uses a unique head assembly that provides the largest water jacket available in an 18 or 20 series torch. With this type of construction, CK provides over 4 x the surface area for maximum heat transfer versus competitive torch heads!

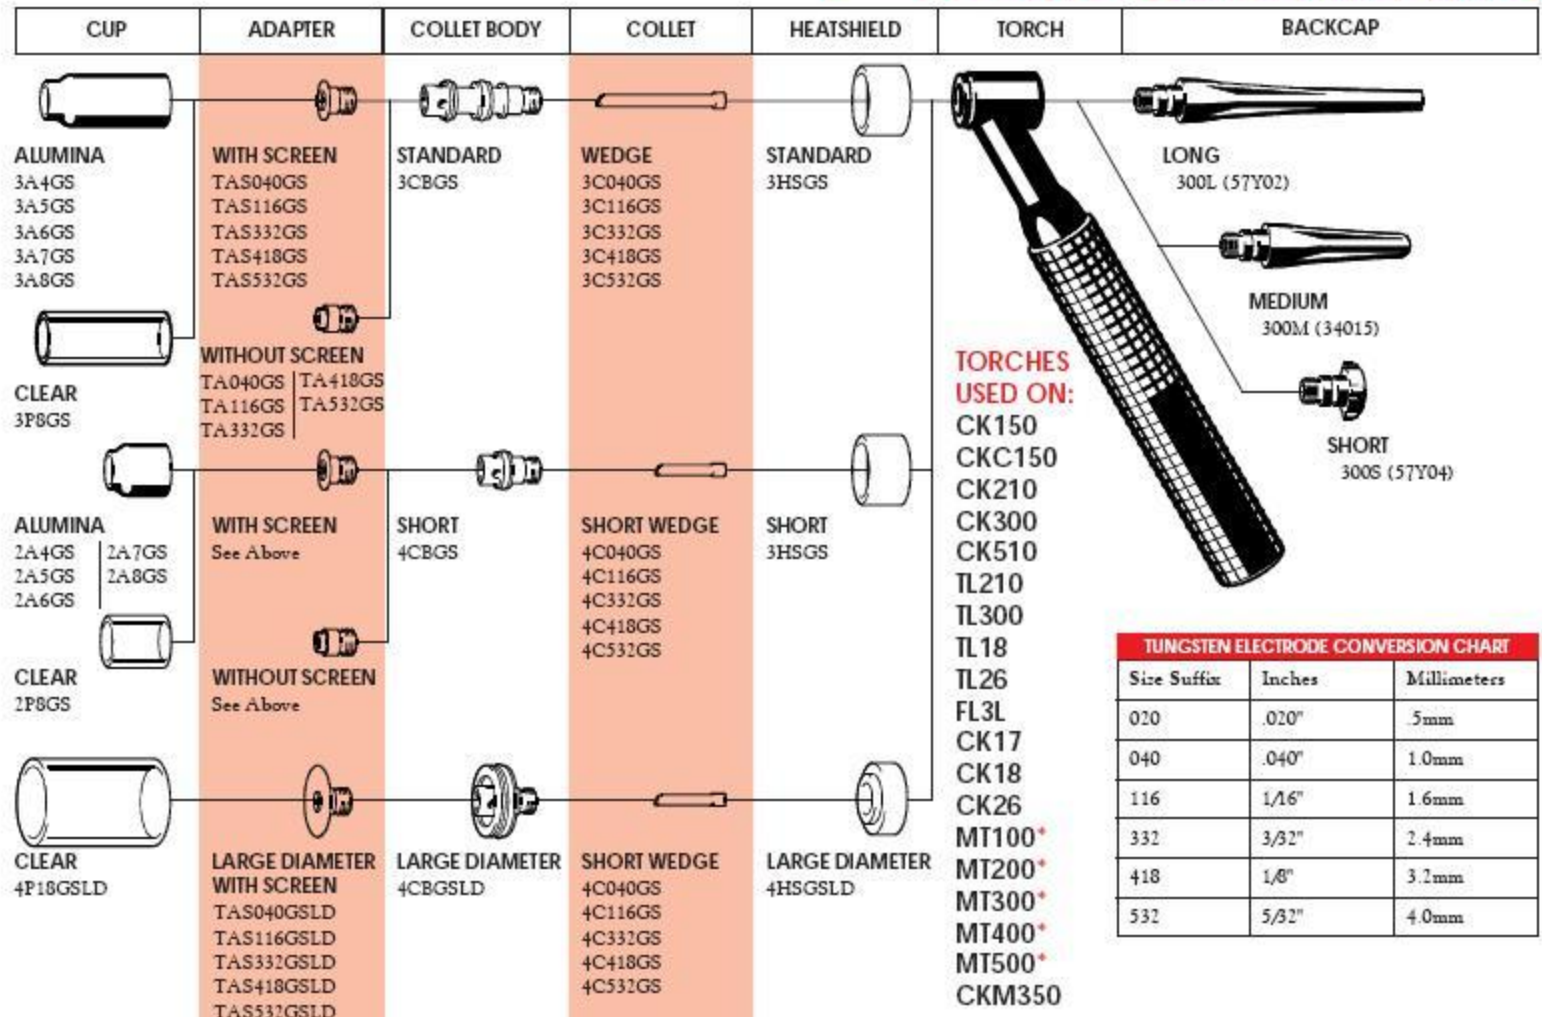

INCREASED COOLING CAPACITY!!

- | **Over 4 x the surface area for maximum heat transfer**
- | **Cooler running torches**
- | **Longer consumable life**
- | **Will hook up to standard cables and hoses**

Size Suffix	Inches	Millimeters
020	.020"	5mm
040	.040"	1.0mm
116	1/16"	1.6mm
332	3/32"	2.4mm
418	1/8"	3.2mm
532	5/32"	4.0mm
